PROJECTS

Astraslide, Nigeria – *Web Design and Development, Branding and Content Management* September 2024 - November 2024
 Pool Construction and Equipment Distribution Company

- Designed and maintained Astraslide’s responsive, SEO-optimized website using HTML, CSS, and JavaScript—enhancing brand visibility, improving user experience, and increasing online inquiries by over 40%.
- Integrated Brevo (fka Sendinblue) for email automation and Google Sheets for contact form submissions, creating a smooth backend workflow that simplified data management and client follow-ups.
- Integrated Google Analytics and Search Console into Astraslide’s website to monitor user behaviour and refine SEO strategies, resulting in a 60% increase in organic traffic within three months.

Leadway Support Australia – *Web Design and Development* April 2023 – July, 2023
 Disability Care Support Company

- Worked with a team of developers to deliver on time and within budget, resulting in a 25% increase in productivity.
- Oversaw user testing for a new feature, gathering feedback that contributed to a 26% improvement in usability.
- Implemented the waterfall model in the development process and DevOps best practices to streamline development processes and increase efficiency.

Words Of Hope Trauma Relief Foundation – *Web Design and Development* February 2023 - May 2023
 Disability Care Support Company

- Spearheaded the foundation’s digital presence by building a user-friendly website that streamlined access to mental health resources, increasing access to support services across underserved communities.
- Leveraged technical expertise to build a platform that connected trauma survivors with essential services, ensuring consistent uptime, accessibility, and user-centered navigation.
- Worked closely with the outreach team to align website content with awareness campaigns and donation drives, resulting in a 70% increase in online contributions and event registrations.
